40 decors in
3 product structures!

Design flooring is the modern interpretation of the classic floor covering, and offers two important advantages: a perfect look and outstanding technical properties. However, that's not all when it comes to MEISTER's healthy-living and sustainable design flooring. It is ecological, too! The "PVC-free times three" product range (WOOD design flooring) encompasses three wood-based design floors. Meanwhile, the "vinyl flooring without vinyl" range includes the two waterproof, synthetics-based floors, MeisterDesign. allround and MeisterDesign. pro. You also have the choice between five high-quality, innovative and, most importantly, sustainable design floors from MEISTER!

WOOD design flooring

Wood-based, PVC-free design flooring for every purpose

A thin floor easy to use for renovation work which do not reveal the outlines of the old tiles underneath? A lightly cushioned floor with a double cork insulating layer? With WOOD design flooring, the choice is yours! MEISTER's product range of wood-based design flooring offers decors in three different product structures: large-format planks, practical short planks and a modern large tile format. The product structure of all three variants is based on wood material. This makes the design flooring in the WOOD product range natural, sustainable, and a non-harmful addition to your home. All three are suitable for use over underfloor heating or cooling systems.

The design flooring not only excels in different living environments; its high durability and wear class 23/33 make it a good choice for commercial areas too.

MeisterDesign. next

MeisterDesign. comfort

MeisterDesign. flex

Sustainable and perfect for healthy living

- Free from PVC and harmful plasticisers
- 100% made in Germany
- Tested antibacterial surface

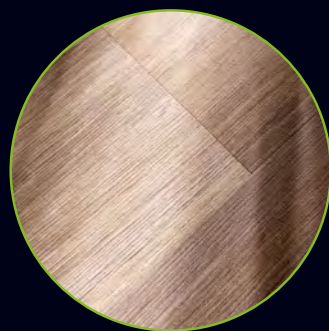

Durable and easy to clean

- Regular vacuuming and sweeping is sufficient
- Wipe with a slightly damp cloth in case of heavier soiling

Puretec® Plus surface for brilliantly coloured decors

- PUR-based transparent polymer layer ensures brilliant colours and an authentic decorative image
- Low pattern repetition creates a rich, varied appearance

Water-resistant

- 4 or 24 hours of water resistance provides extra protection against standing water
- Innovative AquaStop edge impregnation repels moisture
- Suitable for humid rooms, hallways, kitchens and more

Easy to install

- Floating installation without glue or adhesives
- Practical click system Masterclic Plus / Multiclic
- MeisterDesign. comfort and MeisterDesign. next come ready equipped with an integrated sound absorbing cushion

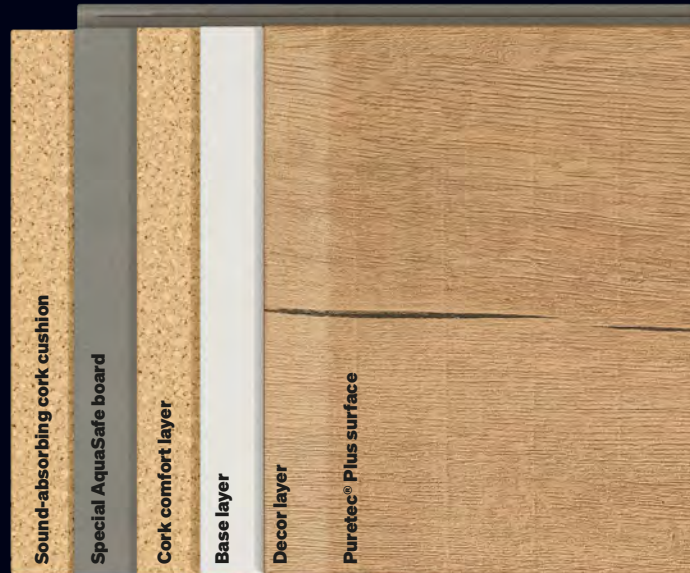

**PVC x3
FREE**

1

MeisterDesign. comfort

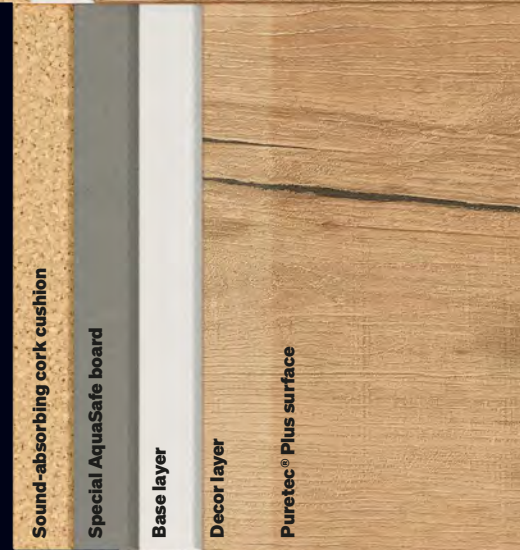

The comfortable feel-good floor with an extra layer of cork.

2

MeisterDesign. next

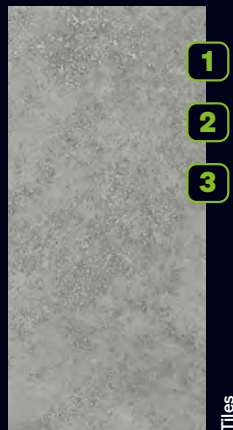

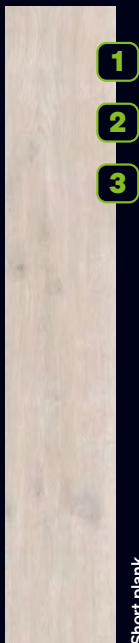

The innovative design flooring with a natural sound-absorbing cushion.

3

MeisterDesign. flex

The slim design flooring with a low installation height.

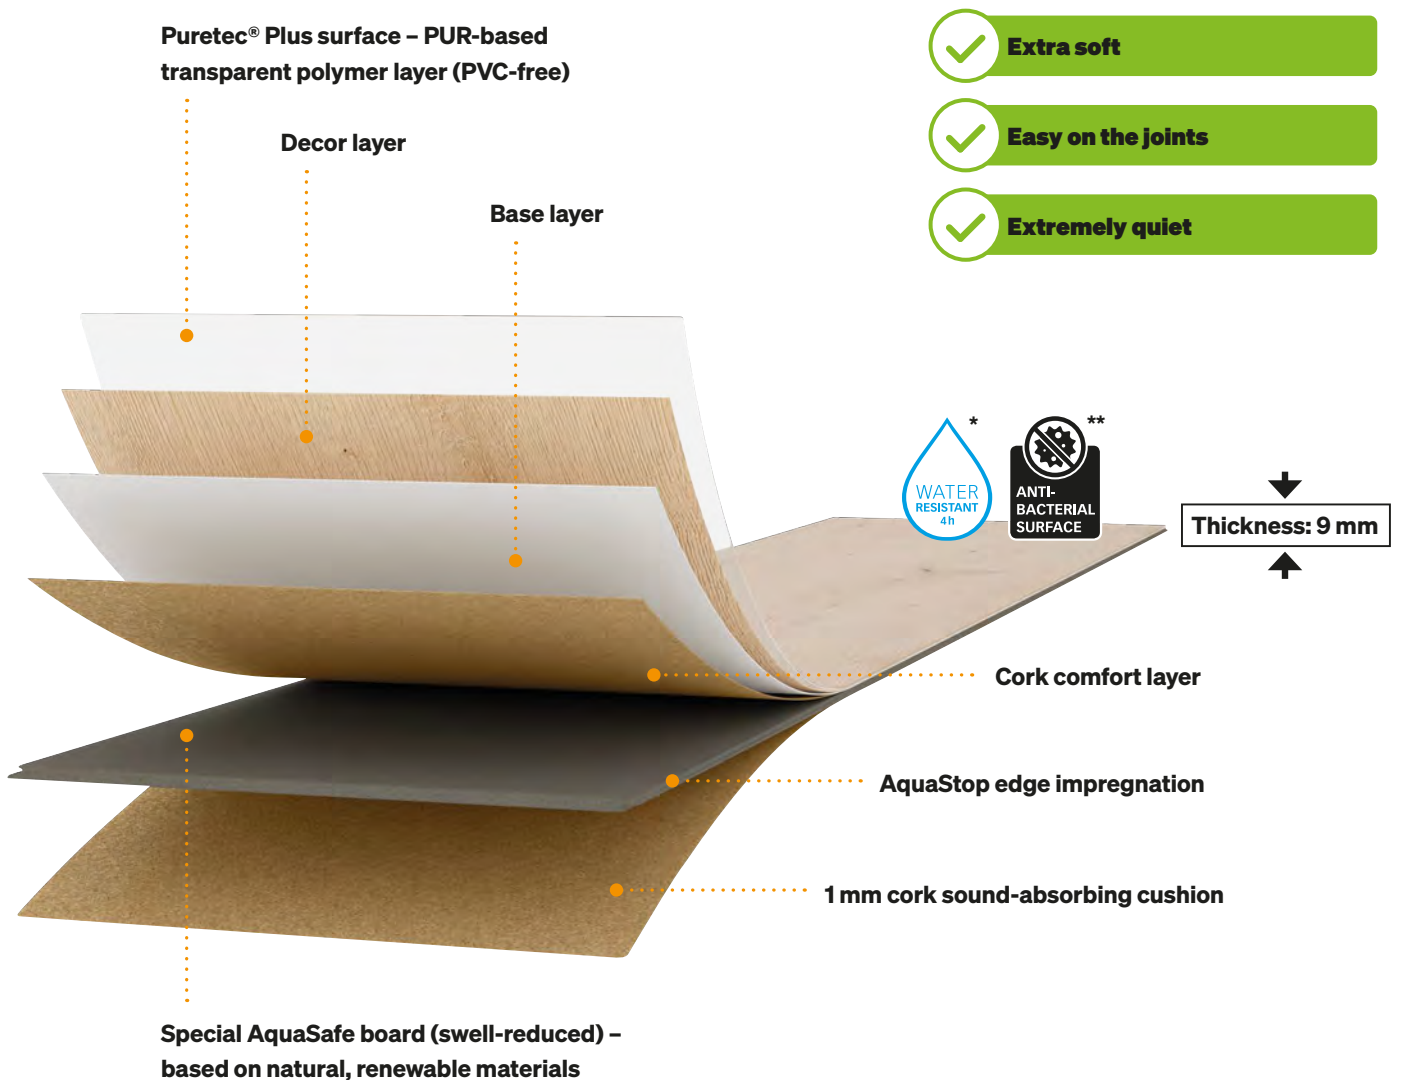

1 MeisterDesign. comfort DL 600 S/DD 600 S/DB 600 S

The comfortable feel-good floor with an extra layer of cork.

With its double layer of cork, the design flooring MeisterDesign. comfort achieves top combined footfall and impact sound values and does not need an additional insulating underlay. Because it is so quiet, easy on the joints, warm underfoot and comfortable, it is just perfect for all living rooms and bedrooms, particularly for children's rooms.

* Can be laid in humid rooms, such as bathrooms. This does not include outdoor areas or wet rooms, such as saunas, shower cubicles, steam rooms or rooms with a floor drain.

** Tested bacteria: Staphylococcus aureus, Escherichia coli

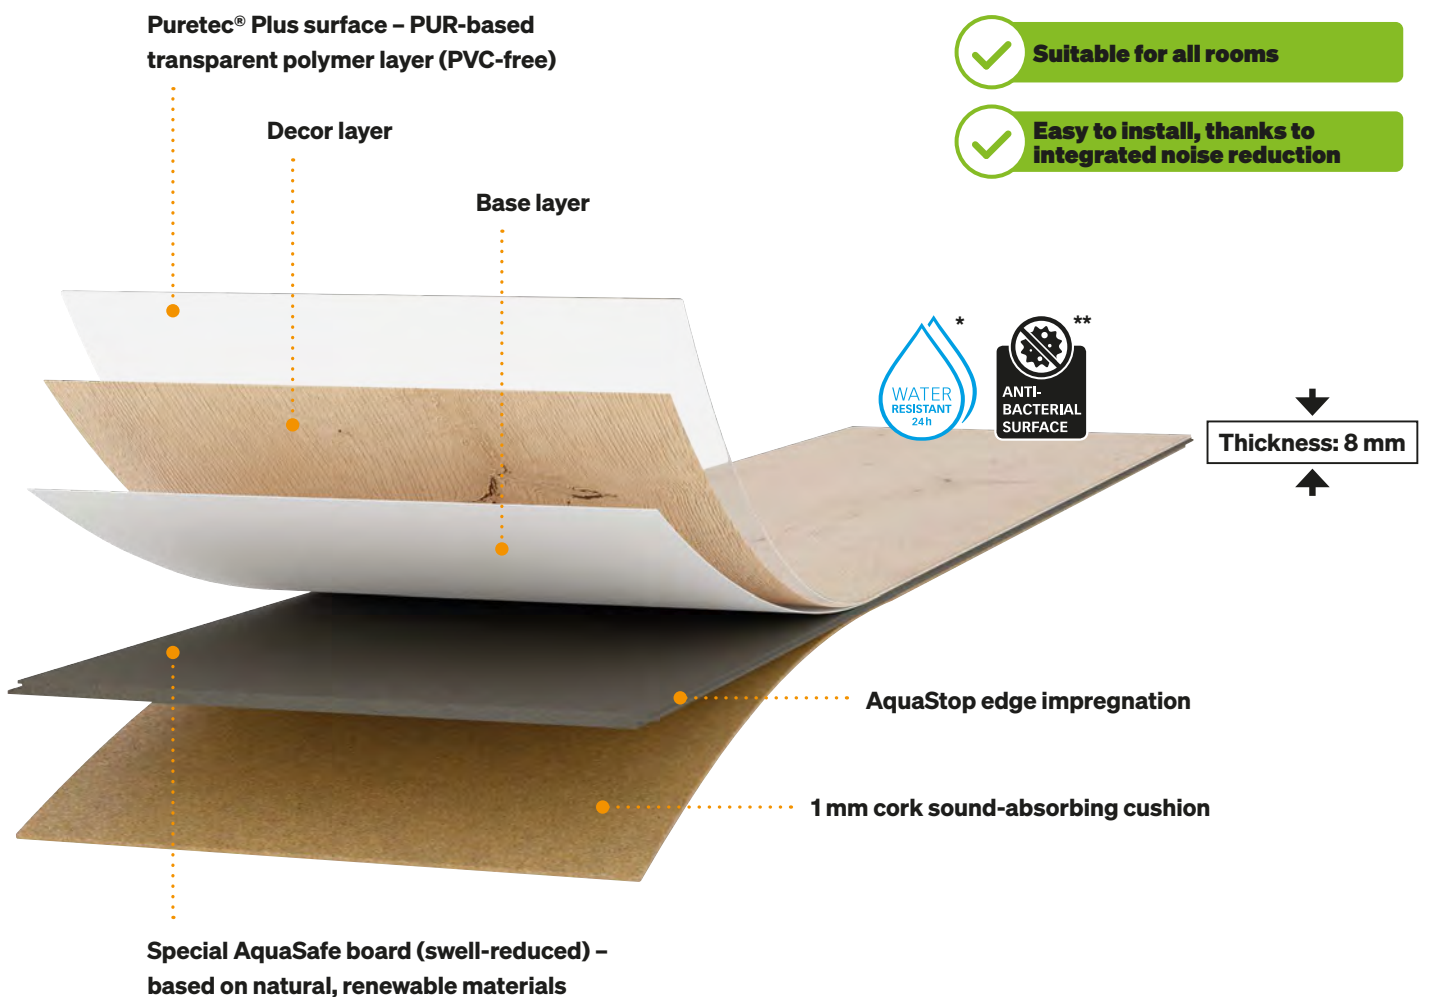

2

MeisterDesign. next DL 500 S/DD 500 S/DB 500 S

The innovative design flooring with a natural sound-absorbing cushion.

MeisterDesign. next is a design flooring that meets practically every living requirement: Its high-quality, modular product structure, with an integrated sound-absorbing cushion in natural cork, forms the basis for a durable and sustainable floor covering that is just as suitable for extra comfort in living rooms and bedrooms, as it is in kitchens or bathrooms (and with underfloor heating, of course!). With 24 hours of water resistance, MeisterDesign. next gives you extra peace of mind!

- ✓ **Water-resistant for 24 hours**
- ✓ **Suitable for all rooms**
- ✓ **Easy to install, thanks to integrated noise reduction**

* Can be laid in humid rooms, such as bathrooms. This does not include outdoor areas or wet rooms, such as saunas, shower cubicles, steam rooms or rooms with a floor drain.

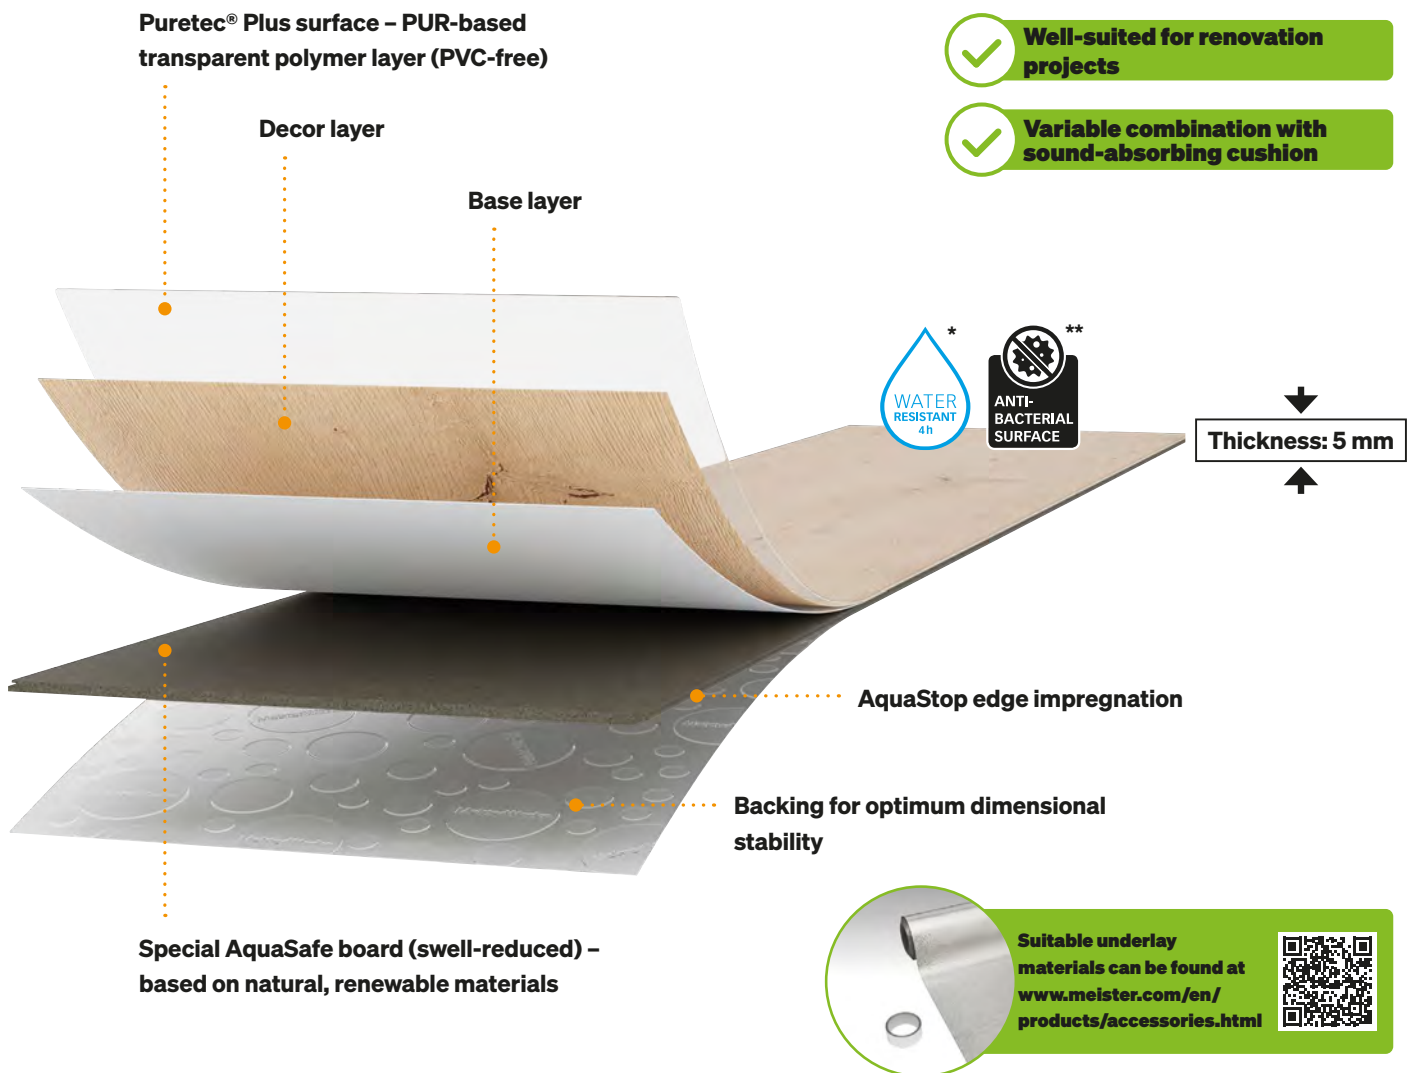

** Tested bacteria: Staphylococcus aureus, Escherichia coli

3 MeisterDesign. flex DL 400 / DD 400 / DB 400

The slim design flooring with a low installation height.

MeisterDesign. flex makes renovation work child's play. The subfloor does not have to be elaborately prepared or smoothed, either. On the contrary: old subfloors, such as tiles, can simply stay where they are, because they will not show through the planks, thanks to the sturdy, special AquaSafe board. MeisterDesign. flex adapts elegantly to any unevenness in the floor. The sound-absorbing cushion offers a flexible choice of different materials and installation heights! MeisterDesign. flex comes up trumps in many living situations, particularly in kitchens and living rooms that need to be renovated quickly and easily.

- ✓ **Flexible**
- ✓ **Well-suited for renovation projects**
- ✓ **Variable combination with sound-absorbing cushion**

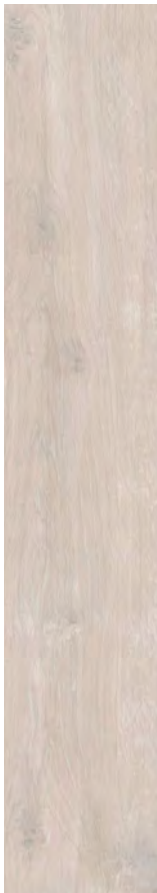

* Can be laid in humid rooms, such as bathrooms. This does not include outdoor areas or wet rooms, such as saunas, shower cubicles, steam rooms or rooms with a floor drain.

** Tested bacteria: Staphylococcus aureus, Escherichia coli

VINYL**

Vinyl flooring without vinyl

Robust. Easy to clean. Ecologically non-harmful. For use anywhere. That's what makes good flooring. Our two "vinyl floors without vinyl" are precisely that – and much more besides. A little-known fact: "vinyl" comes from PVC, which stands for polyvinyl chloride. PVC is not a bad thing per se, but it can contain plasticisers, which can be harmful to the health and environment, to say nothing of the smell. As "vinyl flooring without vinyl", MeisterDesign. allround and MeisterDesign. pro offer all the known benefits of vinyl. They are waterproof, robust, durable and easy to clean.

However, they come without any of the usual disadvantages of vinyl flooring. This means that they remain stable when exposed to heat, and are healthy-living, ecological and completely free from PVC and harmful plasticisers. There are two different product variants to choose from: planks with an easy-to-install click system and an integrated sound-absorbing cushion, or extra-thin flooring for full-surface bonding.

MeisterDesign.
allround

MeisterDesign.
pro

Ecological and perfect for healthy living

- Free from PVC and harmful plasticisers
- 100% made in Germany
- Low-emission and allergy-friendly
- Made largely of recycled material
- Recyclable
- Antibacterial surface

Robust and easy to clean

- Waterproof
- Suitable for residential and commercial use (wear class 23/33)
- UV light and temperature resistant

Easy to install

- Practical Multiclic click system
- Integrated sound-absorbing cushion

Attractive and versatile

- Ultra matt lacquer for extra authentic decors
- Innovative decor layer with low pattern repetition
- Comprehensive range of accessories

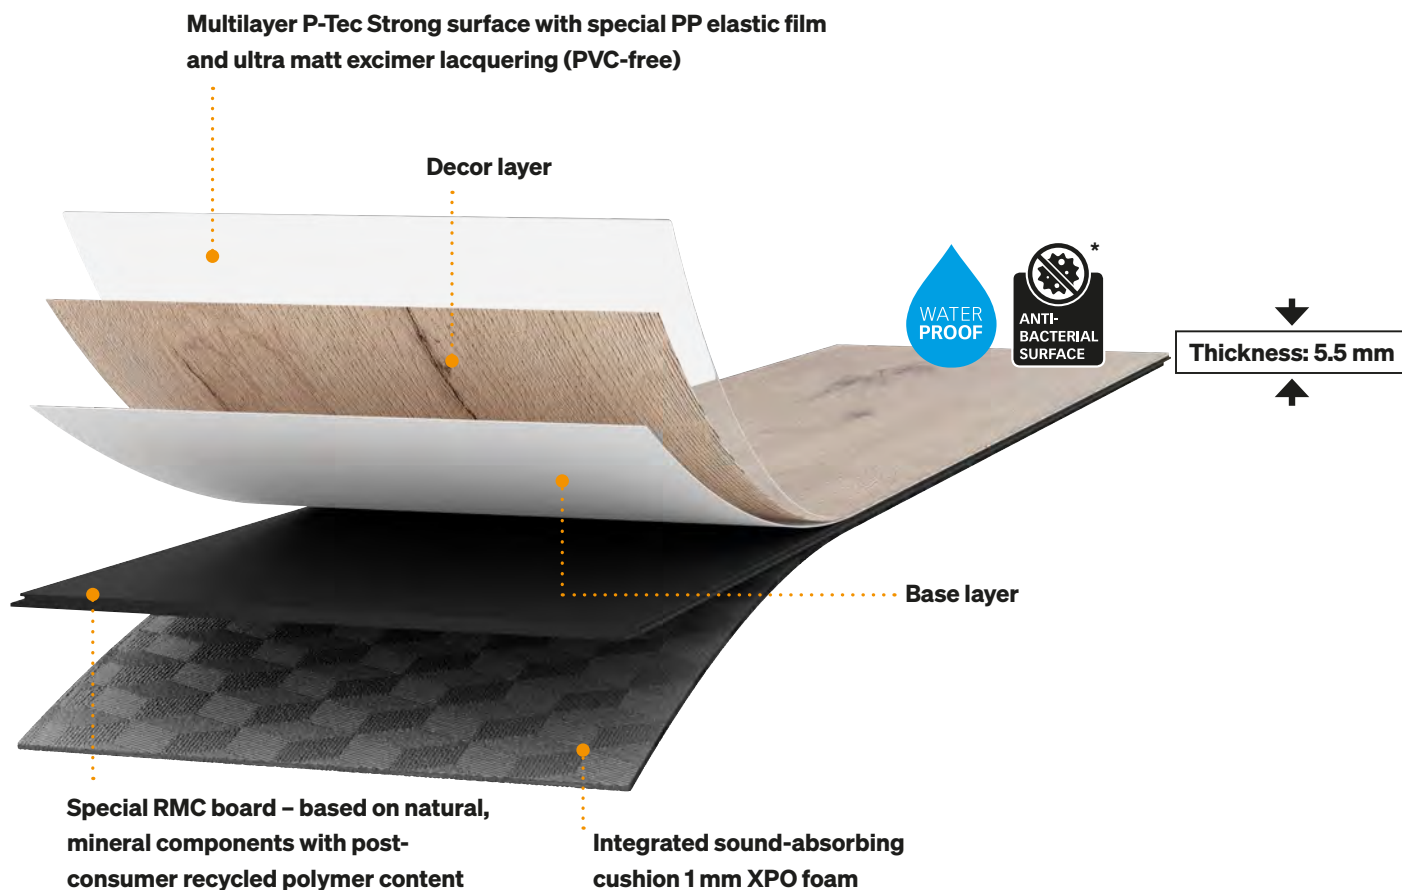

MeisterDesign. allround DD 700 S

The ecological recyclable flooring with a lifetime guarantee – made from recycled materials.

MEISTER's allround flooring lives up to its name: waterproof and extremely robust, with an integrated sound-absorbing cushion and a renovation-friendly height of only 5.5 mm, it's an all-round multitalent. And, it's a sustainability champion too: as well as mineral components, the innovative special board consists of up to two thirds recycled plastic. And the cycle continues: MeisterDesign. allround and its installation scrap are recyclable without being made into other products, such as flower pots, or other forms of downcycling – instead, the floor is made into a new floor covering of equal quality.

This floor is perfect for living rooms and bedrooms, as well as heavily frequented areas, such as the kitchen or hallway – true to its name! MeisterDesign. allround is also perfect for installation over underfloor heating or cooling systems.

* Tested bacteria: Staphylococcus aureus

MeisterDesign.pro DD 200
Desert oak 6998 / Wood effect

Ecological and perfect for healthy living

- Free from PVC and harmful plasticisers
- 100% made in Germany
- Antibacterial surface

Robust and easy to clean

- Waterproof
- Suitable for residential and commercial use (wear class 23/33)
- UV light and temperature resistant

MeisterDesign. pro DD 200

The extra-thin professional flooring for full-surface bonding.

At only 2 mm thick, MeisterDesign. pro is first choice when the installation height has to be kept to a minimum. Following professional sub-floor preparation, it is the perfect (and waterproof) option for the bathroom, hallway and commercial areas, such as shops or restaurants.

ecuran

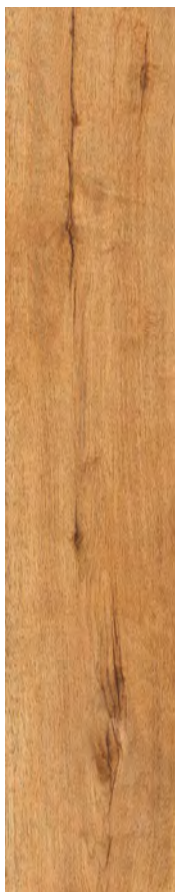

ecuran is the high-performance composite material for demanding flooring solutions. It is based on organic polyurethane, which consists predominantly of vegetable oils, such as rapeseed or castor oil, and naturally occurring mineral components such as chalk. ecuran is non-harmful to health, as it is free from plasticisers, solvents and chlorine.

* Tested bacteria: Staphylococcus aureus

For a perfect finish

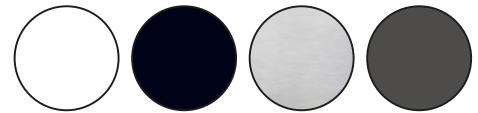

With MEISTER, you can be sure that everything goes together! Underlay materials, skirting boards, profiles and ends – you get everything from one source, Making your flooring into a long-lasting integrated furnishing solution that suits you perfectly.

Skirting boards 12 PK profile / Plain white gloss 324 (Decorative film)

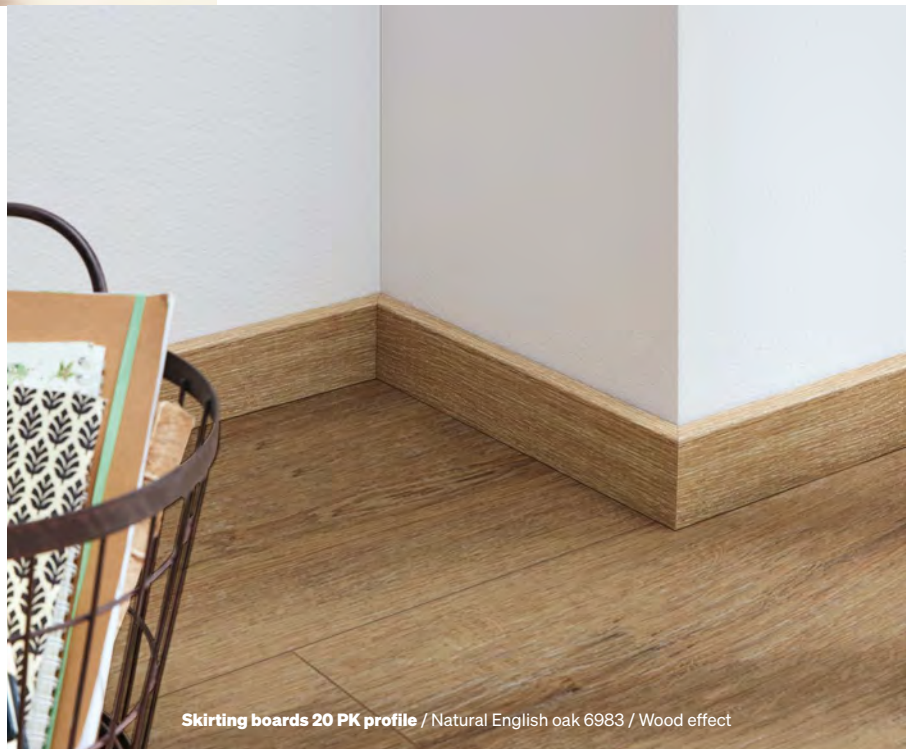

White/plain skirting boards

White skirting boards suit every style and effortlessly complement all other colours. Our mouldings with a white decorative film combine excellently with all floors. Some profiles are also available in the plain colours black, stainless steel and anthracite.

Skirting boards in the same shade

Mouldings in the same shade or decor achieve pure harmony between the floor and skirting boards. They match the decor of the respective flooring, visually extending the floor up to the wall.

Skirting boards 20 PK profile / Natural English oak 6983 / Wood effect

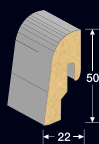

Skirting board 9 PK profile / Paintable white 2222 (individual colour)

Skirting boards to paint yourself

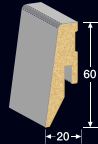

The same colour as your walls? To match your furniture? Or something completely different? It's up to you: design your skirting boards exactly according to your own wishes!

Selection, installation, maintenance and the like: Online services covering design flooring

From floor selection and installation to cleaning, value preservation and small repairs, our website www.meister.com and our YouTube channel (youtube.com/MeisterWerkeTV) offer valuable tips and information all about your new design flooring!

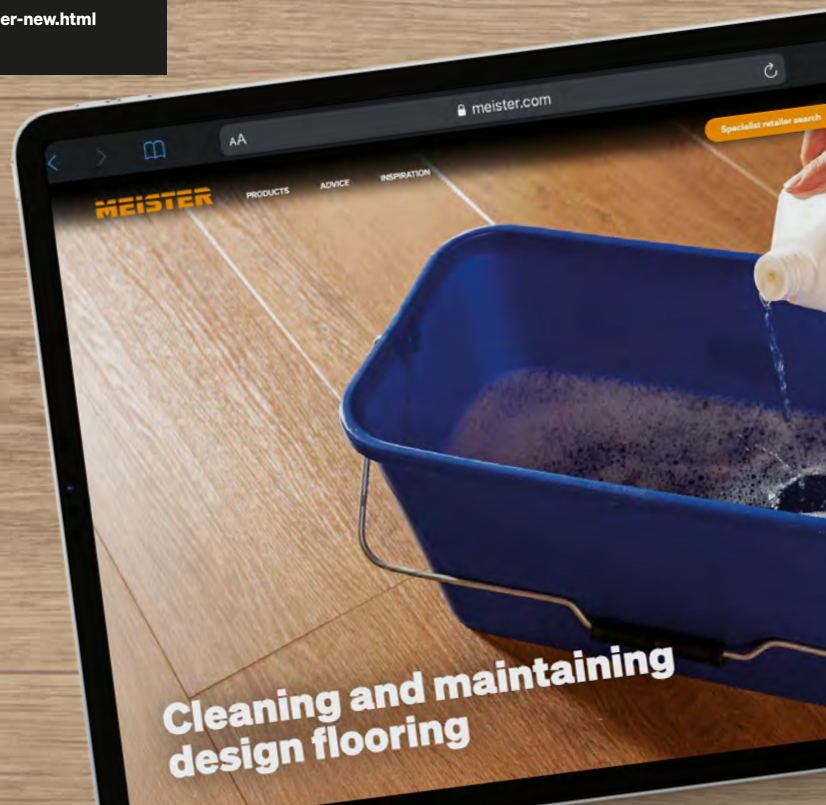

View flooring in your own room

Deciding on a new floor is not always easy. Light? Dark? What format? Does the flooring match the sofa? All these questions can be easily answered using our MEISTER Interior Designer, because with this tool, you can view MEISTER flooring in your own room!

Go to the Interior Designer:
www.meister.com/en/service/interior-designer-new.html

Installation videos

Install design flooring with Multiclic or Masterclic Plus

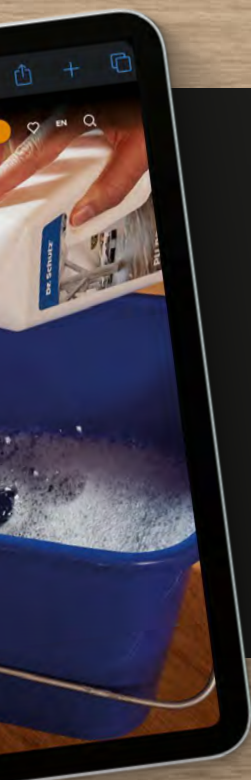

MEISTER uses different click systems, depending on the type of design flooring. With the Multiclic click system, the planks are angled in towards each other on the long side and at the head end – simple, quick and secure! Masterclic Plus is a convenient click system that can be installed without a hammer, and is nonetheless completely stable and sealed.

Watch the Multiclic installation video:
bit.ly/3sljqDd

Watch the Masterclic Plus installation video:
bit.ly/3sT5Rfw

Tips for cleaning and care

Design flooring is extremely straightforward in terms of cleaning and care – usually, vacuuming or sweeping is sufficient. You can find tips about suitable cleaning products and cleaning stubborn dirt on our website under the “Advice” tab.
